WORK EXPERIENCE

PUBLISHED AUTHOR AND SPEAKER / *Be Something Great*
March 2020 - present

As a published author of a children's book called "Be Something Great," I share my story of how football helped me overcome academic and behavioral issues when I was in elementary school. Through this book I visit schools and youth sports program to encourage students to, not just play sports for fun, but to use what they learn in the classroom, at home and in their communities (such as discipline, teamwork, being brave, and hard work). My only hope is they will start their journey to being great as early as they can.
